author={Amaral, L. and Araujo, G. and Lopez, J.},  
journal={International Conference on Field-Programmable Technology,  
2009. FPT 2009.},  
title={HW/SW co-design of Identity-Based Encryption using a custom  
instruction set},  
year={2009},  
month={dec.},  
volume={},  
number={},  
pages={510 -513},  
keywords={Altera Nios II processor;FPGA instructions;HW/SW co-  
design;asymmetric cryptography;code profiling;custom instruction  
set;field programmable gate arrays;hardware-software  
codesign;identity-based cryptography;identity-based  
encryption;pairing based protocols;public key  
cryptography;cryptographic protocols;field programmable gate  
arrays;hardware-software codesign;instruction sets;microprocessor  
chips;public key cryptography;},  
doi={10.1109/FPT.2009.5377681},
